

Srajan

Embedded Systems & Software Engineer

srajan@example.com · +91 90000 00000 · Delhi, India

Software / embedded systems engineer focused on FPGA design, embedded firmware, and interactive web tools.

Experience

Embedded Systems Intern — Company Name

Jun 2025 — Aug 2025

Firmware development for a sensor array product line.

Research Assistant — University Lab

Jan 2025 — May 2025

FPGA-based DSP pipeline research.

Education

B.Tech, Electronics & Communication — University Name

2022 — 2026

Skills

Programming Languages: Verilog, C/C++, Python, JavaScript, HTML/CSS

Embedded Systems & FPGA: Embedded Systems, FPGA Design

Tools: Quartus Prime, ModelSim, Git, VS Code, MATLAB, Arduino
